

SAFETY DATA SHEET (SDS)
OSHA Hazard Communication Standard 29 CFR 1910.1200

Lo-Chlor Fast Dissolve Stabilizer

1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: Fast Dissolve Stabilizer
GENERAL USE: Swimming pool conditioner
PRODUCT DESCRIPTION: Chlorine Stabilizer

DISTRIBUTOR

Lo-Chlor, LLC
(800) 491-9810
5841 Powerline Road, Ste. 202
Fort Lauderdale, FL 33309
Emergency Phone: (800) 424-9300

2: HAZARDS IDENTIFICATION

GHS LABEL

Not a dangerous substance/mixture according to GHS standards

POTENTIAL HEALTH EFFECTS

EYES: May cause mild eye irritation.

SKIN: May cause slight irritation.

INGESTION: No known effects.

INHALATION: No known effects.

CARCINOGENICITY: Not listed by NTP, IARC or OSHA.

COMMENTS: Even though this material is not classified as hazardous according to US OSHA's 2012 Hazard Communication Standard, good hygiene and safety practices should be followed. Good hygiene practices include but are not limited to: wearing suitable gloves and or eye protection; washing hands and affected skin immediately after handling, before breaks, and at the end of the workday; regularly cleaning work area and clothing; etc.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	Wt.%	CAS
Cyanuric Acid	98 - 100	108-80-5

4: FIRST AID MEASURES

EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation occurs, get medical attention.

SKIN: Wash with soap and water. Get medical attention if irritation develops or persists.

INGESTION: No effects expected for small amounts. If large amounts are ingested, get medical attention.

INHALATION: If adverse effects occur, remove to uncontaminated area. If symptoms of overexposure occur, get medical attention.

SIGNS AND SYMPTOMS OF OVEREXPOSURE

EYES: Eye exposure may cause mild irritation of the eye lids and conjunctiva.

SKIN: Exposure to powder or fine particulates of this material may cause slight skin redness, irritation.

SAFETY DATA SHEET (SDS)
 OSHA Hazard Communication Standard 29 CFR 1910.1200

Lo-Chlor Fast Dissolve Stabilizer

INGESTION: No known effects.

INHALATION: Inhaling powder or fine particulates of this material may cause respiratory tract irritation and cough.

CHRONIC EFFECTS: No known effect.

NOTES TO PHYSICIAN: This material causes mild irritation to skin and eyes. Removing the material via irrigation is usually sufficient. There is no antidote. Cyanuric acid is readily removed from the body via the renal system, and is not bioaccumulated. Treatment is supportive care.

ADDITIONAL INFORMATION: Medical Conditions Aggravated by Exposure: May aggravate preexisting conditions such as eye disorders that decrease tear production or have reduced integrity of the eye; skin disorders that compromise the integrity of the skin and respiratory conditions including asthma and other breathing disorders.

Protection of First-Aiders: Avoid contact with skin and eyes. Removing the material via irrigation is usually sufficient. There is no antidote. Cyanuric acid is readily removed from the body via the renal system, and is not bioaccumulated. Treatment is supportive care.

5: FIRE FIGHTING MEASURES

GENERAL HAZARD: Negligible fire hazard.

EXTINGUISHING MEDIA: Use extinguishing media appropriate for surrounding fire.

HAZARDOUS COMBUSTION PRODUCTS: Cyanic acid, ammonia, oxides of carbon, oxides of nitrogen

FIRE FIGHTING PROCEDURES: Move container from fire if feasible. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas. Wear NIOSH-approved positive pressure self-contained breathing apparatus.

FIRE FIGHTING EQUIPMENT: Wear NIOSH approved positive-pressure self-contained breathing apparatus operated in pressure demand mode.

6: ACCIDENTAL RELEASE MEASURES

SMALL SPILL: Collect spilled material in appropriate container for disposal. Avoid generating dust. Keep out of water supplies and sewers. Releases should be reported, if required.

ENVIRONMENTAL PRECAUTIONS

WATER SPILL: Avoid runoff to waterways and sewers. Releases should be reported, if required, to appropriate agencies.

7: HANDLING AND STORAGE

HANDLING: Use methods to minimize dust. Observe good personal hygiene practices and recommended procedures. Wash thoroughly after handling. Wear person protective equipment. (See Section 8.)

STORAGE: Store in a cool, dry, well-ventilated area away from incompatible materials (oxidizing agents).

SAFETY DATA SHEET (SDS)
OSHA Hazard Communication Standard 29 CFR 1910.1200

Lo-Chlor Fast Dissolve Stabilizer

8: EXPOSURE CONTROLS/PERSONAL PROTECTION

EXPOSURE GUIDELINES

OSHA HAZARDOUS COMPONENTS (29 CFR1910.1200)				
			EXPOSURE LIMITS	
			Supplier OEL	
Chemical Name			ppm	mg/m ³
Cyanuric Acid	TWA	10 mg/m ³ [1]	[1]	
Footnotes: 1. (Total Particulate)				

ENGINEERING CONTROLS: General or local exhaust.

PERSONAL PROTECTIVE EQUIPMENT

EYES AND FACE: Wear chemical resistant safety goggles, if eye contact is likely. An emergency eye wash fountain may be provided.

SKIN: As a good hygiene practice, wear protective clothing to minimize skin contact such as standard industrial work clothes, coveralls, safety footwear. Contaminated clothing should be removed and laundered before reuse.

RESPIRATORY: No personal respiratory protective equipment normally required. A NIOSH approved full-face respirator equipped with N95 (dust, fume, mist) cartridges may be permissible under work conditions when symptoms have been observed that are indicative of overexposure.

PROTECTIVE CLOTHING: Wear appropriate clothing. Contaminated clothing should be removed and laundered before reuse.

OTHER USE PRECAUTIONS: Protective material types: Butyl rubber; natural rubber; neoprene; nitril; polyvinyl chloride (PVC)

COMMENTS: Even though this material is not classified as hazardous according to US OSHA's 2012 Hazard Communication Standard, good hygiene and safety practices should be followed. Good hygiene practices include but are not limited to: wearing suitable gloves and/or eye protection; washing hands and affected skin immediately after handling, before breaks, and at the end of the workday; regularly cleaning work area and clothing, etc.

9: PHYSICAL AND CHEMICAL PROPERTIES

PHYSICAL STATE: Solid

ODOR: Odorless.

APPEARANCE: Off-white granular powder.

pH: 4.8

FLASHPOINT AND METHOD: Not Applicable

FLAMMABLE LIMITS: 0 to 0

VAPOR PRESSURE: 0.000001 Pa @ 25° C

VAPOR DENSITY: Not Applicable

MELTING POINT: Decomposes without melting.

SOLUBILITY IN WATER: 0.2% @ 25° C

DENSITY: 1.75 g/mL at 25°C

Notes: Bulk Density: 50-56 lbs/ft³ (loose)

SPECIFIC GRAVITY: 1.768

SAFETY DATA SHEET (SDS)
 OSHA Hazard Communication Standard 29 CFR 1910.1200

Lo-Chlor Fast Dissolve Stabilizer

10: STABILITY AND REACTIVITY

REACTIVITY: Not reactive under normal temperatures and pressures.

HAZARDOUS POLYMERIZATION: Will not occur.

STABILITY: Stable at normal temperatures and pressure.

CONDITIONS TO AVOID: Avoid contact with incompatible materials.

HAZARDOUS DECOMPOSITION PRODUCTS: Cyanic acid, ammonia, oxides of carbon, oxides of nitrogen

INCOMPATIBLE MATERIALS: Oxidizing agents.

11: TOXICOLOGICAL INFORMATION

ACUTE

DERMAL LD₅₀: > 5000 mg/kg (rabbit)

ORAL LD₅₀: 3400 mg/kg (mice)

Notes: Oral LD50 7700 (rat)

INHALATION LC₅₀: > 5.25 mg/L (4 hour - rat)

CARCINOGENICITY

Notes: Not classified as a carcinogen by NTP, IARC or OSHA.

REPRODUCTIVE EFFECTS: Not known to cause reproductive toxicity.

MUTAGENICITY: Not mutagenic in 5 salmonella strains and 1 E. coli strain with or without mammalian microsomal activation.

GENERAL COMMENTS: This material is believed to be non-toxic by inhalation, dermal exposure and ingestion. Monosodium cyanurate was administered via drinking water to rats for 104 weeks at concentrations of 0, 400, 1200, 2400, and 5375 ppm (solubility limit). No compound-related effects on body weights, clinical signs of toxicity or food or water consumption were noted during study. An increased incidence of gross lesions in the urinary tract, calculi in the kidney and lesions in the heart were observed in males receiving the highest dose level of 5375 ppm (solubility limit). The health effects seen in this study were due to precipitation of the test substance in the urinary tract when the test substance was fed at the solubility limit. Adverse health effects were not seen at lower doses where precipitation did not occur.

12: ECOLOGICAL INFORMATION

ENVIRONMENTAL DATA: Cyanuric acid is toxic to certain plants including barley and rashishes due to acidic nature of material.

AQUATIC TOXICITY (ACUTE):

Fish Toxicity:

- LC50 Bluegill sunfish: >1000 mg/L (96 hour)
- LC50 Rainbow Trout: >2100 mg/L (96 hour)
- LC50 Fathead minnow: >2100 mg/L (96hour)
- LC50 Inland silversides: 8000 (96 hour)

Invertebrate Toxicity:

- LC50 Water Flea: >1000 mg/L (48 hour)
- LC50 Mysid shrimp: 4438 mg/L (96 hour)

Algae Toxicity:

- EC50 Green Algae: 655-712 mg/L (96 hour)
- EC50 Navicula pelliculosa: >3780 mg/L (96 hour)

SAFETY DATA SHEET (SDS)
OSHA Hazard Communication Standard 29 CFR 1910.1200

Lo-Chlor Fast Dissolve Stabilizer

Notes: This material is believed to be non-toxic to aquatic life.

CHEMICAL FATE INFORMATION: Biodegradation: Cyanuric acid biodegrades readily under a wide variety of natural conditions, and particularly well in systems of either low or zero dissolved-oxygen levels.

Persistence: This material is believed not to persist in the environment. Cyanuric acid has an estimated Henry's Law Constant of 1.36×10^{-18} atm-m³/mol. Atmosphere half-life is estimated to be 102 days. Cyanuric acid will have a high soil mobility based on KOC values ranging from 66 to 124.

Bioconcentration: Aquatic bioconcentration and adsorption are not expected to be important fate processes for cyanuric acid. The BCF for cyanuric acid is <0.5 at 1 mg/L for a 6-week duration.

13: DISPOSAL CONSIDERATIONS

DISPOSAL METHOD: Dispose of in accordance with applicable local, state, and federal regulations.

14: TRANSPORT INFORMATION

DOT (DEPARTMENT OF TRANSPORTATION)

PROPER SHIPPING NAME: Not Regulated.

15: REGULATORY INFORMATION

UNITED STATES

SARA TITLE III (SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT)

311/312 HAZARD CATEGORIES: Not listed.

313 REPORTABLE INGREDIENTS: Not regulated.

CERCLA (COMPREHENSIVE RESPONSE, COMPENSATION, AND LIABILITY ACT)

CERCLA REGULATORY: Not regulated.

CERCLA RQ: No.

TSCA (TOXIC SUBSTANCE CONTROL ACT)

TSCA STATUS: All ingredients are listed or exempt.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA)

29 CFR1910.119---PROCESS SAFETY MANAGEMENT OF HIGHLY HAZARDOUS CHEMICALS: Not regulated.

CALIFORNIA PROPOSITION 65: There are no chemicals present known to the State of California to cause cancer.

OSHA HAZARD COMM. RULE: This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200)

16: OTHER INFORMATION

Date Revised: 3/30/2015

REVISION SUMMARY: This SDS replaces the 1/21/2013 SDS. Revised: **Section 2:** COMMENTS, EMERGENCY OVERVIEW - IMMEDIATE CONCERNS. **Section 4:** ACUTE TOXICITY, ADDITIONAL INFORMATION, CHRONIC EFFECTS, EYES, NOTES TO PHYSICIAN, SIGNS AND SYMPTOMS OF OVEREXPOSURE (INGESTION, INHALATION, SKIN). **Section 6:** WATER SPILL. **Section 7:** HANDLING, STORAGE. **Section 8:** COMMENTS, PERSONAL PROTECTIVE EQUIPMENT - SKIN. **Section 9:** ODOR. **Section 10:** STABLE.
